Company Profile

EMIN Group, established in 2011, is the leading company in direct importing and distributing Testing equipments, Automation equipments, Laboratory equipments, Handheld Tools..... with variety of models, offering with best price, with flexible payment policy and outstanding post-sale services. We believe you will be served and advised with all the best.

Mission

Our mission is to work closely with manufacturers, leading suppliers in local and international market to provide high-quality equipment with the best price policy for customers as individuals, domestic and foreign organizations.

We committed to be a reliable partner not only for enterprises with 100% foreign investment, multinational companies, local businesses, Corporations, projects with international funding, joint-stock companies, limited liability companies, etc ... but also with businesses in the private sector, mainly small and medium enterprises.

Vision

Emin Group will become a leading distributor of industrial equipment, instrumentation, automation, hand tools, ... in order to meet most of the needs of the enterprises.

The following business policy were gone through by employees of EMIN Group, and imbued with absolute compliance:

- *Not selling low quality, counterfeit and pirated goods, goods of unknown origin ...*
- *Always provide our customers the best products with the most competitive price, comes with perfect service.*
- *Always prioritize prestige, treating customers with respect and honesty ...*
- *Always put ourselves in customers situation to make decisions and behave with best manners ...*
- *Always satisfy every customer of EMIN.*

Systems Solution

1. Image-based Code Readers

- Outstanding image quality thanks to a unique dual-line CMOS sensor that provides high read rates and OCR results
- High scanning frequency for high-resolution images (200 dpi) up to a conveyor velocity of 3.8 m/s
- Integrated verifier for efficient analysis of 1D/2D code quality
- Short downtime when devices are replaced thanks to the intelligent cloning module
- High-contrast, even with color printing, due to optional blue/white illumination

2. OCR - Inspection - Checking

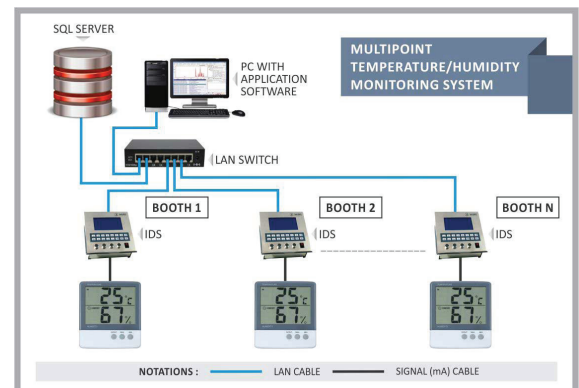

- Dynamic focus and dynamic brightness adjustment provide sharp, uniform images for different object heights, code positioning and transport speeds
- To check pattern or color
- To check presence/Absence
- Integrated verifier for efficient analysis of 1D/2D code quality
- To check OCR
- Minimum object distance: ≥ 50 mm

Distributor of Systems Solution Sanlixin, SIGNODE, Malcom, PTI, Intrise, LEAPTRONIX, SCZN, IFREE, Emerix, ProT Ar-Ge (FADOS), Universal Instruments, MANNCORP, Extension, Vitrox, Mikyo, Anda, Polar, Airzero, ICAM, Huntron, SYNEO, Maker-Ray, Unicomp, Bakon, Transpak, Thermaltronics...

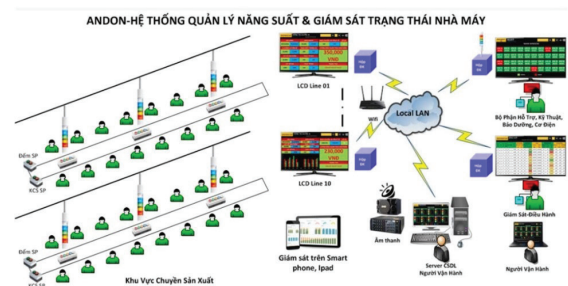

3. Temperature & Humidity Monitoring System

- Display temperature and humidity
- Remote access via website, Mobile
- Export the report file
- Connections wireless and wired
- Number of sensors unlimited
- Setup level warning

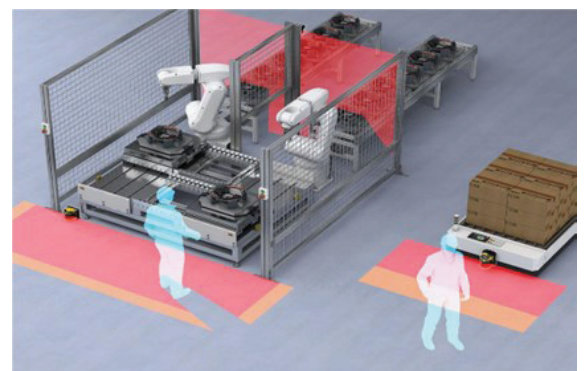

4. Production Planning Monitoring System

- Display and transparency in process production
- Increase productivity and efficiency
- Educed costs and downtime
- Export the report file
- Monitoring via website, Mobile

5. Application Safety

- Protective field range: 4 m / 5.5 m / 7 m
- Warning field range: 49 m
- Scanning angle: 190°
- Number of fields: 24
- Number of monitoring cases: 16
- Response time: 60s
- OSSD pairs: 1
- Easy installation, commissioning and maintenance for stationary and mobile application

6. Automatic Screw Robot

- Automatic screw fastening systems with desktop or SCARA robots will increase throughput on a variety of assembly applications. These systems are completely integrated and include robot (desktop or SCARA), electric drivers, screw feeder systems. we can customize the system to suit your needs, provide total solutions.
- Control HMI Touch Screen

7. Conveyor PVC System

Adjustable Speed depends on each product and conveyor capacity 5-30 (m/min)

- Material of conveyor frame: Steel frame, stainless steel, ...
- Conveyor belt: PVC belt has roughness surface or smooth
- Rollers: Steel, stainless steel, roller covers rubber ...
- Control table: inverter, emergency stop button, pressing button ON/OFF ...

8. Conveyor Chain System

- Hanging chain conveyors are used in factories with the function of transporting products running around factories and production workshops, saving production area
- Automatic increase chain by suspension load and spring
- Transportation speed varies by inverter and is overloaded protected
- Conveyor speed 2-7 m / min

SERVICE CENTER BY EMIN

Equipment Inspection - Calibration - Repair Service

1. CONSULTING

Experts in various fields along with frequent training and support from world's top branch partners, we are confident to consult and draw out the best solution for any need customer ever have.

2. SUPPLY & INSTALLATION

Provides solution to improve productivity in electrical fields, environmental field, measurement system, production line... and customized solution.

Deliver & Support customers to install equipment.

3. TRAINING & GUIDE

Consistent, professional and up to date Techniques

Professional Instructors & Expert

Training & guidance associated with practice

4. VERIFICATION & CALIBRATION

The Verification & Calibration Center recognized by the Directorate for Standards, Metrology and Quality and the Vietnam Union of Science and Technology Associations (AOSC). We archived ISO/IEC 17025 Certificate since January, 2021. We have capability to verify & calibrate in fields: Length, Mass, Electricity, temperature, Mechanics, Capacity-Flow, Chemical & Physical Quantities....

5. REPAIR & WARRANTY

Provides Equipment Repair & Genuine Warranty. Technical partnership with various branches, expert and well equipped tools along with authorized parts to secure the best service onsite and offsite.

6. EQUIPMENT RENTAL

Provide wide range of product for rent as well as tech support. Matching the need of short time response on replacing faulty equipments or in short term project requirement.
