

**NETWORK SECURITY TRAINER**

Model Number : GOTT-NST-1

**PRODUCT FEATURES****DESCRIPTION**

This GOTT Network Security trainer consist of mostly a variety of software that can be used on LAN and WAN systems for Security Protection, reference's text books and exercise manuals. The books and manuals will instruct students in the basic theory of network security, network threats, firewalls, Hacker attack, Worm Methods, Web Security and more special-purpose secure networking method. Students will be able to set up systems starting from the most basic network security, Encryption, Web Security and security for Wi-Fi technology.

Note this trainer is an add on module that will work together with the GOTT LAN Technology trainer and the GOTT WAN technology trainer.

**SPECIFICATION**

- General Security Concept
- Data Encryption Method
- Virtual Private Network (VPN) Technology

**EXPERIMENT TOPIC**

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

**Manuals :**

- (1) All manuals are written in English
- (2) Theory Manual
- (3) Experiment Manual

**General Terms :**

- (1) Accessories will be provided where applicable.
- (2) Manual & Training will be provided where applicable.
- (3) Design & specifications are subject to change without notice.
- (4) We reserve the right to discontinue the manufacturing of any product.

**Warranty :**

2 Years

**ORDERING INFORMATION:**

| ITEM                     | MODEL NUMBER | CODE    |
|--------------------------|--------------|---------|
| NETWORK SECURITY TRAINER | GOTT-NST-1   | 312-022 |
