SCD-103B Strapping machine

Electrical configuration: "OMRON", "PLC" control, French "TE", and photoelectric switch control.

Scope of application

Bundles of heavy or large objects suitable for automatic packaging lines

technical parameter:

Product model	SCD-103B
Long men frame size	Customizing according to demand
Table Height	Customizing according to demand
Binding method	Parallel 1 to multichannel, mode optoelectronic control, manual and so on
Tighten force	0-60kg (Adjustable)
power	3 ϕ 220V/380V 0.75kw
Packing speed	\leq 2.5Second / Channel
Packing belt specification	thick (0.55~1.2) mm*wide (9~15) mm
Net weight	280kg
