

## Leather Softness Tester HTX-022

东莞华科东尼仪器有限公司  
Dongguan Hust Tony Instruments Co. , Ltd.

### Detailed Description

Softness Tester Analogue. Designed for use in the leather industry. Deflection of the material whilst clamped above an aperture of a known diameter is measured when subjected to a specific load applied by a pin of a smaller diameter. The deflection is read on the analogue gauge.

### Specifications:

Gauge range: 0.1~10mm

Load: 500g

Test loop diameter: 20mm, 25mm

Dimension: 500\*100\*250mm

Weight: 5kg

Standard: IULTCS.IUP 36

Accessories: Calibration plate 1pcs, 20mm rings 1pcs, 25mm rings 1pcs
