

## Oscillation Dyeing Machines GT-D18

---

**Application:**

This Oscillation Dyeing Machines apply for all kinds of fabrics sample dyeing with normal temperature, washing, fastness test, etc. It can simulate actual produce condition exactly, meeting require effectively. The operation mode of this machine is oscilation style, can add salt, alkali and other aids while dyeing process.

## Feature

- 1.Control circuit apparatus with excellent parts, stable performance, long service life.
- 2.Machine use SUS304 high-quality stainless steel, anti-staining and strong, beautiful and durable.
- 3.Equipped with PT100 temperature probe, temperature measurement, high precision, long service life.

## Key Specifications

Model	GT-D18A	GT-D18B
Beaker Numbers	12	24
Beaker Volume	250ml	
Heating Mode	Electric heating	
Heating Medium	Water	
Heating Power	3KW	6KW
Temperature Range	RT- 99°C	
Thermostat Timer	0-99min	
Liquor Ratio	1:5-1:20	
Oscillating Speed	50-200cpm	
Oscillating Range	40±3mm	
Power Supply	1φAC 220V 50/60HZ	
Dimensions(L×W×H)	880×420×330mm	1030×560×330mm
Weight	30 kg	50kg
