Flat grinding machine

L-PM-240D

1. Product introduction of PM-240D flatterer

L - PM - 240 - d flat grinding apparatus at home and abroad is based on many years of use, maintenance of various types of grinding apparatus part of one's own advantage, according to the chemical GB5211.19 pigments in the determination of the relative tinting strength and dilute colors - visual colorimetry, standards and printing ink, paint, paint and other industries design and manufacture inspection standard, is the industry to improve product quality, guarantee the necessary instrument of economic benefits. The counting control part adopts single chip microcomputer, which has the characteristics of accurate counting, reliable operation and intelligent control. The reducer and the motor are directly connected with the coupling, which has high torque, no loss and self-protection. The ground glass is made of heat - resistant, pressure - resistant, colorless mirror glass by fine grinding, high flatness, durability, no effect on the light color sample.

2. Product parameters of PM-240D flatterer

- 01. Grinding disc diameter: 240mm
- 02. Load: 43 kg 64kg 100kg
- 03. Weight: 1.75kg 3.5kg 6.4kg
- 04. Power supply voltage: 220V±19V 50HZ (220V can be customized)
- Glass disc speed: 75 RPM ±5 RPM
- 06. Set winding number: 1~9999
- 07. Number of turns: 0~9999
- 08. Cumulative times: 0~9999
- 09. Overall dimension: 580*360*480 (length * width * height)
- 10. Weight: about 80kg
- 11. Motor power: 0.75KW
