Wear resistance testing machine L-339

Release date : 2020-11-23

Abrasion tester 339L-3391. Product useThe abrasion resistance testing machine is suitable for all kinds of surface spraying products and printing fonts friction resistance life test. It has adjustable

- [Details](#)

Abrasion tester 339

L-339

1. Product use

The abrasion resistance testing machine is suitable for all kinds of surface spraying products and printing fonts friction resistance life test. It has adjustable speed and visual display of speed in test, and can set test times. The test results are accurate and the operation is simple.

2. Technical parameters

Maximum stroke: 0-50mm adjustable (customized 0-300mm adjustable stroke)

Speed: 1-80 times/min (round trip) adjustable

Test head size: 10mm

The installation method of test head is snap-lock nozzle installation, which is very convenient for customers

Friction hammer: rubber and alcohol with different fixtures, and 14 weights (10g, 20g,

Two each for 25g, 50g, 100g, 200g and 500g)

Counter: Count 0-999999 times

Total power: 50W

Power source: AC220V 50/60Hz

Recommended

-

Automatic tool metallographic measuring instrument V400

•

Automatic tool metallographic measuring instrument V800

•

Automatic tool metallographic measuring instrument V1800

-

Automatic tool metallographic measuring instrument V2000
