

MPM-1010/1010B

High Precision Power Meter

MPM series intelligent electrical parameter measuring instrument is a set voltage test, current test, power test. Multi-functional measuring instrument with integrated power factor and high-speed processor inside.

Features

Six test parameters V, A, P, PF / F / Apk

Power factor, current, power upper and lower limit settings, sound and light alarm

Wider frequency response 15Hz-650Hz, surpassing all products of the same level

Can test no-load power consumption, minimum current 0.2mA, minimum power 0.001W

model	MPM-1010	MPM-1010B
Four window display	V, A, P, Apk / PF / F	
Input voltage	1V ~ 300V	
Input Current	0. 2mA ~ 3000mA	
Power range	0. 01W ~ 900W	0. 001 ~ 900W
Accuracy	$\pm$ (0.4% reading + 0.1% range)	
Range switching	automatic	
Power factor	0-1	
Frequency range	AC: 15Hz ~ 650Hz	
communication method	RS232	
Upper and lower limit settings	V, A, P, PF	
Local electricity	110V / 220V switchable	
Audible alarm	√	
Key lock	√	
Bare metal size (W * H * D) mm	225 * 100 * 305	220 * 105 * 360
Packing size (W * H * D) mm	300 * 210 * 420	300 * 210 * 480
Net weight kg	2. 5	2. 5
Gross weight kg	3. 3	3. 6
